Dear Brayan Estalla,

It is my pleasure to invite you to attend the 2025 CEDAR | GEM joint Workshop to be held at the Des Moines Convention Center in Des Moines, IA from June 22nd– 27th, 2025.

The workshop includes community organized breakout workshops as well as grand challenge workshops, poster session with a student poster competition, a student day, plenary sessions with science highlights, agency updates and tutorials, a distinguished lecture, and a prize lecture.

We look forward to your attending this workshop and presenting your poster entitled, *Development of a radio mode for the long wavelength array (LWA) receiving system to study the equatorial aeronomy*. This is an excellent opportunity to meet and talk with other colleagues in your research community.

We look forward to seeing him there!
Sincerely,

A handwritten signature in black ink, appearing to read "Maggie Payeur", is written in a cursive style.
