

Acceptance Letter

Dear Dr. Hernando Tavera,

This is to confirm that the abstract with the title

Climatology of mesospheric echoes obtained with the new JULIA-MP mode: Preliminary results

has been accepted for presentation in the session

Recent advances in instrumentation and observation

of the

17th International Symposium on Equatorial Aeronomy (ISEA 17)

The type of presentation is a poster presentation.

We herewith invite the author and submitter

Dr. Danny Scipion (Instituto Geofísico del Perú)

to present the paper and to participate in the 17th International Symposium on Equatorial Aeronomy in Liberia, Costa Rica from February 9 – 13, 2026.

The International Symposium on Equatorial Aeronomy (ISEA) is held once in every three to four years. Researchers from the fields of atmosphere, ionosphere and magnetosphere science come together in ISEA to share new results, discuss the current state-of-the-art, and identify promising topics for future research.

Kühlungsborn/Germany, 20.11.2025

Dr. Phillip Trefz

ISEA 17 Local Organizing Committee
