Mini-Circuits' standard terms and conditions apply to this Quote. A copy of these terms and conditions are available upon request and are located on the reverse side of Mini-Circuits' invoices, which terms include a standard limited warranty and disclaimers of other warranties and limitation of liability provisions. To the extent this Quote conflicts with Mini-Circuits' standard terms and conditions, the standard terms and conditions will control.

Mini-Circuits minimum order requirement: \$50.00

"To the extent that this Quote is issued in response to an offer or this Quote is considered a response to an offer based on previous documents or circumstances, then acceptance of your company's order is expressly made conditional on your company's assent to the terms and conditions of this Quote. If your company does not assent to such terms, there is no contract."

If you have any information suggesting that the commodities of this proposed order will be used in the design, development, production or use of nuclear, chemical or biological weapons or ballistic missiles or in a facility engaged in such activities then it requires prior authorization/ export license from U.S. Dept. of Commerce, Office Export Licensing, Washington, D.C., and you are strongly urged to notify us with the details in advance.

Shipment of the above quoted models is subject to the approval of / Export License from the U. S. Department of Commerce. Please advise us of the end use of these models.

This quote is not applicable for distribution in the following Embargo/ Restricted countries and/or any entity on the U. S. Dept. of Commerce denials list: Iran, Iraq, Libya, Cuba, North Korea, Syria and Sudan.

Your company may reschedule a release of parts contained within an order provided Mini-Circuits receives written notice of your company's intention to do so at least fifteen (15) days prior to the scheduled shipment date, as specified in Mini-Circuits' records, for the parts that are the subject of the rescheduling request. Unless Mini-Circuits otherwise agree in writing, the maximum delay in shipment of any rescheduled release of parts is ninety (90) days from the original shipment date, as specified in Mini-Circuits' records. Your company shall not have the right to reschedule any particular release of parts more than two (2) times. Notwithstanding anything to the contrary contained herein, (i) once a release of parts is expedited at your company's request, the parts subject to that release may not be rescheduled; or (ii) once a release of parts is rescheduled the parts subject to that release may not be cancelled. If your company fails to comply with any aspect of this rescheduling procedure for a particular release of parts, your company shall promptly pay a "Cancellation Fee" equal to the total price of the parts subject to that release.

Fees for cancellation (\*) for customer convenience are as follows:

	Catalog	Non-Catalog
For orders past earliest scheduled ship date:	95%	100%
For orders to be shipped within 1 month:	95%	100%
For orders to be shipped within 2 months:	95%	100%
For orders to be shipped within 3 months:	75%	100%
For orders to be shipped within 6 months:	50%	85%
For orders to be shipped within 9 months:	5%	85%
For orders to be shipped in more than 9 months:	0%	85%

(\*) Cancellation charges based on earliest request of order ship date. To avoid cancellation charges, each line item may be rescheduled one time within 3 months of the original scheduled ship date. However, any cancellation request after the first rescheduling will be billed at 100% of the purchase order amount. These charges apply unless a model is non-cancellable, non-returnable (NCNR).

The parts referenced in this quote are not authorized for use as critical components in medical or life support devices or systems (collectively, "Medical Systems"). Accordingly, Mini-Circuits parts that are used in Medical Systems are sold "as is, with all faults". Mini-Circuits' standard limited warranty does not apply to parts used in Medical Systems and Mini-Circuits will have no responsibility or liability in connection therewith and same are hereby waived, all as more particularly described in Mini-Circuits' standard terms and conditions. A "critical component" is any component of a device or system whose failure to perform may result in injury to person or property or cause a failure in the device or system or affect its safety or effectiveness.

Any reference by Mini-Circuits to your company's internal reference numbers or documents (including part numbers, purchase orders, specifications, drawings or other technical documents) are merely for your company's internal reference convenience and are not applicable or binding on Mini-Circuits.

Please provide end user information including name, address and application when placing your order.

Mini-Circuits Quality Policy is to satisfy our customers through continuous improvement. To meet this goal we would appreciate details on your projected usage in order to reduce future lead time.

Payment required for order acceptance by Mini-Circuits. Leadtime will begin upon receipt of prepayment. Payment not received within 60 days shall be construed as a no charge cancellation by customer.

Your company's acceptance of this Quote is expressly subject and limited to the terms and conditions stated herein. Notice of objection is hereby given to any proposed term or condition or any alteration whether perceived as major or minor in nature. The provisions of your company's request for Quote ("RFQ") and/or other documents are not expressly or implicitly incorporated into this Quote, nor are they intended to be incorporated herein and they are not binding on Mini-Circuits. Accordingly, any reference to an RFQ or other document issued by your company is merely for your company's internal reference convenience.

\*\* There is a \$600.00 minimum per Non-Catalog model line item with the exception that the minimum is waived if units are in stock and there is no date code requirement.

In keeping with growing industry demand, RoHS compliant models may be substituted for standard non-RoHS compliant models unless we receive a written instruction from your company to the contrary. RoHS compliant models are clearly marked with a "+" suffix following the base model on packaging. For individual RoHS compliant model details and Mini-Circuits' methodologies, assumptions and qualifications relating to RoHS compliance, please go to [www.minicircuits.com](http://www.minicircuits.com) and click on the "RoHS/Pb-free Program" button.

We appreciate the opportunity to quote your requirement. For further assistance, please contact me directly.

Thank You
