Dr. Hernando Tavera
Institutional Chief
Instituto Geofísico del Perú
Calle Badajoz 169
Urb. Mayorazgo IV Etapa, Ate
Lima 15012, Peru

Dear Dr. Hernando Tavera,

It is my pleasure to invite Dr. Edgardo Enrique Pacheco Josan, Principal scientific investigator, Instituto Geofísico del Peru to attend the 2026 CEDAR Workshop to be held at the Des Moines Convention Center in Des Moines, IA from June 21st– 26th, 2026.

The workshop includes community organized breakout workshops as well as grand challenge workshops, poster session with a student poster competition, a student day, plenary sessions with science highlights, agency updates and tutorials, a distinguished lecture, and a prize lecture.

We look forward to his attending this workshop and presenting his posters entitled, Analysis and Comparison of Preliminary Measurements from a Low-Cost Scintillation Monitoring System in Peru and Study of Vertical Plasma Drifts and Spread-F Variability Using Ionospheric Radar Measurements over the Peruvian Sector.

We look forward to seeing Edgardo there. This is an excellent opportunity to meet and talk with other colleagues in his research community.

Sincerely,

Tracey Baldwin
